Objective

Seeking a full-time software development engineer position.

Education

Texas A&M University, College Station, Texas

B.S. Computer Engineering; Minor in Mathematics; Expected May 2023

Mountain View College, Dallas, Texas - Associate of Science; May 2019

Relevant Courses Data Structures and Algorithms, Programming Studio, Linear Algebra, Computer Graphics, Software Engineering, Discrete Structural Computing, Program Design Concept, Computer Architecture and Design, and Computer System Design.

Skills

C/C++, Java, Python, Ruby, HTML/CSS/JavaScript, Jira, Github, PostgreSQL, Docker, NodeJS, React, Agile, Continuous Integration/Delivery, Test Driven Development, Code Review, Communication, Teamwork, Problem-Solving, Attention to Detail, Adaptability, and Creativity.

Professional Experience

Amazon AWS SageMaker-GroundTruth, Seattle, WA

Software Development Engineer Intern (Java | JavaScript | TypeScript)

4 months (May 2022 - August 2022)

- Collaborated on improving the SageMaker GroundTruth machine learning platform.
- Fully Implemented OpenID Connect (OIDC) authentication protocol to 2 existing resources.
- Authored 5-page documentation on 3 major feature changes.
- Initiated 11+ code reviews that were approved and pushed into the AWS production pipeline.
- Submitted 5+ tickets to outside teams to ensure the code got deployed in all regions.
- Collaborated with outside teams to update AWS public documentation for 2 SageMaker resources.
- Found 2 major bugs in legacy code and implemented a hot-fix for both.

Project Experience

Music Master (Python | Flask | React | PostgreSOL)

- Collaborated to create a tool to improve the efficiency of practice sessions for musicians.
- Protyped a comparison algorithm to incorporate contexted-based fingerprinting for objects.
- Initiated a docker image and container to use for development.
- Led scrum ceremonies for an agile team of 5.
- Designed PostgreSQL database layout for 3 entities.

Student Engineers' Council's Budget Request System (Ruby on Rails | PostgreSQL)

- Developed a budget management application using the Rails framework and PostgreSQL.
- Led scrum ceremonies for an agile team of 5 and exceeded customer expectations.
- Illustrated UML diagram for 7 entities, 8 relations, in the 3rd normal form.
- Developed, tested, and integrated CRUD for 2 entities.
- Collaborated on the implementation of a GoogleOAuth login page.

Additional Involvement

Texas A&M Computing Society (TACS), Texas A&M University

Active Member, August 2021 - December 2021

Participated in weekly discussion panels with industry professionals in Computer Science.

TAMU Hack, Texas A&M University

Hackathon Participant, September 2019 and September 2021

- Experimented with developing an android mobile app using Kotlin (2019)
- Experimented with Rust programming language. (2021)

Honors

Hispanic Scholarship Fund, Scholarship Recipient, December 2021.

Texas A&M University, Century Scholar, August 2019.

Dallas A&M Club, Scholarship Recipient, August 2019.
